

Geography Summer Work

September 2015 saw the launch of the new geography magazine enrichment activity. This is a great option if you are keen to further your geographical studies and will look impressive on your university applications if you are interested. We would like you to show your geographical enthusiasm by writing a geographical article that could potentially feature in the first magazine. All you have to do is choose a topic from the list below and produce an interesting, well written article up to a maximum of 500 words and email to kerry.spamer@wyke.ac.uk preferably before enrolment. This does not commit you to be involved in the magazine.

TOPICS

- 1. Why I chose to study geography**
- 2. A photograph and write up of something geographical that you have seen over the holidays**
- 3. Summary of a geographical event in the news**
- 4. Some primary/secondary geographical research that you have conducted**
- 5. A geographical description of somewhere you have visited**
