

WYKE Photography

Summer Work – ELEMENTS OF COMPOSITION –

-to be handed in during Enrolment in September-

You are to research the following keywords in conjunction with composition in photography. Add any others you think relevant.

Describe what each word means in this context and include a photographic example for each – one that you have taken. This can be done on your phone if you do not have a camera, if the above is not possible, as a last resort, you could use a downloaded image.
