

BTEC LEVEL 3

MUSIC TECHNOLOGY

Year 11 Transition Work

Welcome to Music Technology at Wyke College.

Course Leader and tutor – Steve Cutler

Thank you for your interest in studying Music Technology at Wyke Sixth Form College. The Digital Music Production pathway we run is a practical, fun and highly technical course. The use of DAW's (Digital Audio Workstations) will form an everyday part of your learning . Due to the importance of DAW's in Music Technology the department has created a tailored online lesson for you to complete over summer using BandLab.

You will not need to purchase or install any software to complete the task on BandLab. You will need to open the link bellow using the Google Chrome browser on any desktop, laptop or tablet / iPad. It will then enrol you onto Wyke Music Technology Summer Task. Here you will be creating your own song. Along with the song you will complete a Track Creation Log using the template below on page 2. These tasks will help to prepare you for starting your journey on the Music Technology BTEC. I hope you enjoy your summer and look forward to meeting you all in the new academic year.

Band Lab Link - <https://edu.bandlab.com/join/mxcape4>

Kind Regards

Steve

Track Creation Log

Student Name.....

Why do you wish to study Music Technology BTEC?

What genre did you choose to make your song in and why did you choose that genre?

What instruments are included in your song?

Please state how many bars are in each section of your song. e.g. Intro = 16 bars, Verse = 16 bars, Pre-Chorus = 2 bars, Chorus = 16 bars, Bridge = 8 bars (If you do not understand this song writing terminology call the sections of your song A,B,C etc)

Please complete tasks before the end of August and e-mail finished log to steven.cutler@wyke.ac.uk
