

## Subjects and Qualifications Careers Information for Enrolment 2021

The following table is a guide to the subjects often required at A level or BTEC equivalent for degree courses or specific careers. The list is **NOT** comprehensive or definitive and sometimes there can be a great deal of variation in the entry requirements for each university. If in doubt, please refer questions to the Careers Team to check specific course requirements. This is a brief summary of a much more complex picture, so please make it clear to students they should always make sure they have researched entry requirements before making their final subject choice for A levels/BTECs.

Many higher education institutions have general requirements of at least 5 GCSEs at grades 9-5/A\*-C, or equivalent, and many specify that this must include English, Maths and science and sometimes other subjects. If in doubt, **check!**

Career/Degree	A Levels	BTEC	GCSE Information
